

Recall Matt Garner 2.0!

Matt Garner's election campaign was the most expensive in Yucaipa's history, amassing over \$35,000, significantly outspending all other candidates. His No on Recall campaign has collected donations amounting to over \$15,000 thus far. Alarming, three-quarters of his funding comes from out-of-town developers, casting doubts about his motivations and qualifications.

Why must he be recalled?

- **Broken Promises:** Garner pledged to protect the rural character of the North-Bench, opposing high-density developments. Once elected, he supported every high-density project proposed to the City Council, including those in the North-Bench.
- **No Allegiance to His District:** Garner has consistently ignored the wishes of his constituents throughout his tenure. He has refused repeated invitations to meet with his constituents to discuss concerns. He stated, "I decline to walk into an ambush" and demanded an apology for being "viciously attacked over the past year and a half. "Every other city leader has willingly met with citizens.
- **Unfit to be a Community Leader:** He admits to voting according to the directions of Bobby Duncan and Justin Beaver, two controversial council members. His appointments and decisions consistently favor developers, indicating a greater interest in personal and financial gains rather than the welfare of Yucaipa and its residents.
- **Indifferent to mobile home residents:** He voted to disband the rent control board for mobile home parks, disregarding a large group of his constituents.
- **Deception:** He presented himself as both a Democrat and a Republican, depending on the audience of his campaign materials.

These are just a few of the many reasons Matt Garner no longer deserves the trust of Yucaipa's citizens. If you live in District 1, **vote to recall Matt Garner!**
