

Recall Matt Garner!

Matt Garner's unexpected candidacy for City Council in 2022 raised eyebrows. Before running, he was neither active in the community nor engaged with Yucaipa's issues. Despite this, his campaign was the most expensive in Yucaipa's history, amassing over \$35,000, significantly outspending all other candidates. Alarming, three-quarters of his funding came from out-of-town developers, casting doubts on his motivations and qualifications.

Why must he be recalled?

- **Untruthful:** Despite claiming to be a business owner in election filings and campaign materials, Matt Garner is actually employed as a sales representative at Foundation Building Materials.
- **Deception:** He presented himself as both a Democrat and a Republican, depending on the audience of his campaign materials.
- **Broken Promises:** Garner pledged to protect the rural character of the North-Bench, opposing high-density developments. Yet, once elected, he supported every high-density project proposed to the City Council, including those in the North-Bench.
- **No Allegiance to His District:** As a resident and supposed representative of the North-Bench, Garner has consistently ignored the wishes of his constituents throughout his tenure.
- **Unfit to be a Community Leader:** He admits to voting according to the directions of Bobby Duncan, another controversial council member.
- **Self-Serving Votes:** His appointments and decisions consistently favor developers, indicating a greater interest in personal and financial gains rather than the welfare of Yucaipa and its residents.

These are just a few of the many reasons Matt Garner no longer deserves the trust of Yucaipa's citizens. If you live in District 1, sign the petition, and **vote to recall Matt Garner!**
